Projects

Portfolio Website | *HTML, CSS, JavaScript*   **2024**
- Started this project to test myself on HTML and CSS just after learning it.
- Showcasing myself, the websites and projects I created using a website.
- Portfolio: https://riship-dev.github.io/Portfolio Repository: https://github.com/riship-dev/Portfolio

Flappy Dragon the Game | *Python, PyGame*   **2023**
- A fun project I started to test my expertise on python.
- Utilises object-oriented programming and external libraries.
- https://github.com/riship-dev/Flappy-Dragon

Tic-tac-toe | *C*   **2022**
- A mini project I started to test my expertise on C just after learning it.
- Utilises various mechanisms like loops, conditional statements and functions.
- https://github.com/riship-dev/FirstCProject-TicTacToe

Food Calories and Macronutrients counter | *HTML, CSS, JavaScript, React.js*   **2024 - Present**
- A project I started after completing my web development course and inspired by my fitness journey.
- Allows users to search for a food, enter the quantity then the website/application displays the calories and macronutrients of the given food.

Volunteering

Competitive Programmer   **CodeChef (College Club)**   **2022 - 2023**
- Attended weekly programming challenges.
- Participated in Ideathons and Hackathons with club members.
